Summary

Junior Frontend Developer who builds responsive web apps with React, Next.js, TypeScript and Tailwind CSS. Has built an AI-powered skin analysis app during a frontend engineering internship at Skinstric AI and has deployed projects that use Firebase authentication, Stripe payments, Redux Toolkit and REST APIs. Brings nearly four years of enterprise client success experience at Indeed, managing executive relationships and leading cross-functional initiatives with Product, Sales and Operations.

Technical Skills

Languages & Web: JavaScript (ES6+), TypeScript, HTML5, CSS3, responsive and mobile-first design
Frameworks & Libraries: React, Next.js (App Router), Tailwind CSS, Redux Toolkit, React Router
Backend & APIs: REST APIs, Axios, Firebase Authentication and Firestore, Stripe, Next.js route handlers
Tools & Platforms: Git, GitHub, Vite, npm, Vercel, ESLint, Figma

Experience

Skinstric AI (Remote) Sep 2026 - Oct 2026
Frontend Engineer (Internship)

- Built a responsive AI skin analysis web app, collaborating with the design team and working from their Figma designs.
- Developed a multi-step Next.js (App Router), TypeScript and Tailwind CSS flow that captures a face via webcam or gallery upload and submits it to Skinstric's AI API for demographic analysis.
- Implemented Next.js route handlers as a server-side proxy to the AI service, with request validation, base64 image encoding and error handling that keeps API endpoints out of the client.
- Managed analysis results with Redux Toolkit and built an interactive dashboard that ranks predictions by confidence, lets users override them and persists selections across the session, with loading states and mobile-first layouts.

Indeed (Remote) Aug 2022 - May 2026
Senior Client Success Manager, Enterprise

- Owned a $2.5M+ annualized enterprise book of business, ran quarterly business reviews and held a 90-95% average CSAT.

Amplifier (Austin, TX) Mar 2021 - Jul 2022
Client Services and Operations Manager

- Led SaaS onboarding for accounts worth ~20% of company revenue, increasing platform adoption through client feedback.

Projects

Summarist | Live Demo | GitHub

- React 19, TypeScript, Vite, Redux Toolkit, Firebase and Stripe: audiobook summary app with Firebase authentication, saved and finished libraries in Firestore, an in-app audio player and Stripe checkout and billing-portal subscription flows.

SebFlix | Live Demo | GitHub

- React, Vite, React Router and the OMDb REST API: movie search platform with sorting by title or IMDb rating, dynamic routing to movie detail pages, loading states, poster fallbacks and a responsive layout.

YouTube Clone | Live Demo | GitHub

- React, Vite, React Router and the YouTube Data API v3: browse popular videos by category, search, and open watch pages with the embedded player, channel details, comments and related videos.

Education

Frontend Simplified May 2026 - Oct 2026
Frontend Developer Bootcamp (React, Next.js, TypeScript, Tailwind CSS)

Ball State University May 2019
Bachelor of Science, Music Media Production
